EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Allowable Subject Matter

1. Claims 1-11 and 14-23 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The closest prior art is USPN 3,755,029 to Ellis et al. (hereinafter referred to as Ellis).

Ellis teaches that it is known in the art to apply a reinforcement fabric to a fibrous insulation board via an initial tack coat of mastic (column 1, lines 7-47), but the prior art fails to teach or suggest the use of an adhesive material in combination with the mastic coating. It would not have been obvious to one having ordinary skill in the art at the time the invention was made to use an adhesive material in combination with the tack coat of mastic, because the prior art does not teach or suggest a method of insulating ducts comprising adhering a reinforcement fabric to an insulation board, subsequently lifting at least a portion of the fabric from the board, applying a mastic coating, and then embedding the fabric into the mastic coating such that a separate cutting and sizing step of the reinforcement fabric is not necessary.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
